WHO does not marvel at the flight of a bird? The roaring jet does not seem such a miracle. It cannot fly with the same grace and beauty and ease.

Every bird must learn to fly. The mother bird pushes her fledgling out of the nest. The young bird falls helplessly until its wings discover the invisible support of the air.

If our lives are to rise beyond frail human nature, we too must learn to fly . . . on wings of faith. We must discover the invisible support of God's presence and power.
